RE: Candidate: Marisa Wetterskog

To Whom It May Concern:

I am writing to you in support of Marisa Wetterskog and her desire to seek employment with your company. Though many students ask me to make this request on their behalf, I only recommend students whom I feel are well-suited for this opportunity. Marisa is one of those students.

I had the pleasure of having Marisa in my Senior Seminar class as she worked on her capstone project. She proved to be a highly motivated and conscientious student. She worked extremely hard on her project to produce an animated short that included research, design, modeling, texturing, drawing, animating, and lighting. I'm proud of her project and I'm also proud of her strong leadership skills among her peers. She is a passionate learner and always seemed to have a great awareness of new and creative strategies. Marisa proved to have the perseverance, initiative, and intellectual creativity necessary to learn and contribute to others around her. Her respectful and laid-back spirit make her a great student, team member and leader.

I have very high hopes for Marisa. If her performance in my class is any indication of how well she will succeed, she will be a positive addition your company.

If I can provide any additional information to support Marisa, please contact me at
Roxanne.Minnish@UTDallas.edu or 972.883.7502.

Sincerely,

Roxanne W. Minnish
